

MultiConverter

Licensing

Licensing Model

You can download the MultiConverter and use several features and the preview free of charge. Converting files to Microsoft Visio requires a Conversion License Key or an Unlimited License.

Conversion License Keys

You can acquire Conversion License Keys from oneAssist. We offer a stacked pricing model. By telling us the necessary amount of conversions you pay only for what you need.

Please use the form on our website to request a quotation based on our current pricing.

The application's main window displays the number of remaining Conversion License Keys. You can enter multiple licenses simultaneously. The Conversion license Keys are not limited to a single machine. During each conversion your remaining conversion licenses are verified. For the conversion process to work, an online connection is required. Only if a conversion is completed successfully, your conversion license is invalidated.

Unlimited Licenses

If a permanent online connection is not available in your environment or if you need to convert a large number of files the Unlimited License might meet your requirements. An Unlimited License is entered separately via the settings menu. There is no limit to the number of files you can convert. An online connection is not necessary at all. The unlimited license is bound to a single machine and not transferable.

License Limitations

It is not allowed to convert third-party files as a service using the Unlimited License.

Conversion Service

We are happy to do the conversion for you. This is the most convenient way and saves you the trouble of searching for and installing legacy software. We offer a stacked pricing similar to the Conversion License Keys. You pay exactly for the number of files that are converted by our experts.
